SUMMARY

A versatile full-stack developer with a proven ability to adapt and excel in new technologies. Skilled in building scalable and efficient applications across both front-end and back-end. Dedicated to delivering high-quality solutions that enhance user experience and system performance. Passionate about learning, problem-solving, and driving innovation for business growth.

WORK EXPERIENCE

FULLSTACK WEB DEVELOPER, BOUNTEOUS   JUNE 2023 - Present

- **Developed** Nomnom, an accelerator technology powering 100+ restaurant websites and mobile applications across the US, enabling seamless online ordering and delivery.
- **Optimized** functions by leveraging AWS Lambda, reducing infrastructure costs by **25%** and enhancing deployment speed.
- Designed and built Orderboard, a web-based analytics platform using React, enabling restaurant clients to track real-time order trends, leading to a 20% improvement in business decision-making efficiency.
- Implemented socket programming for live order tracking, reducing order processing delays by 35% and improving operational efficiency.
- Achieved an **85 Lighthouse score** by optimizing image formats, managing states efficiently, and implementing lazy loading, code splitting, and reducing cumulative layout shift.
- Enhanced state management with Redux, reducing frontend data-fetching time by 40% and improving application performance.
- Spearheaded the development of the Product Upselling feature, which increased product sales by over **40%**.
- Developed responsive and user-friendly interfaces with React, Bootstrap, and JavaScript, leading to a 15% increase in user engagement.

INTERN, BOUNTEOUS   JAN 2023 - MAY 2023

- **Optimized full-stack applications,** enhancing system performance by 30%, reducing latency, and improving scalability.
- **Refactored and optimized backend services,** reducing API response times by 25% and increasing request-handling efficiency.
- Developed responsive UIs with **React, Bootstrap, and JavaScript**, reducing page load times by 40% and increasing user retention by 15%.
- Built and integrated scalable APIs using **Java Spring Boot**, improving backend functionality and reducing API call failures by 20%.
- Implemented **database optimizations** to enhance query performance, reducing data retrieval time by 35%.
- Conducted performance **testing and debugging**, improving application efficiency and reducing downtime by 15%.

SKILLS

Front end : React JS Node JS TypeScript Python Java Express Chai-Sinon MySQL MongoDB Redux SpringBoot Postman BootStrap FramerMotion Tailwindcss Sass Django Cypress

STRENGTHS

- **Adaptable & Quick Learner –** Thrive in dynamic environments, quickly grasping new technologies and methodologies.
- **Problem Solver –** Passionate about tackling complex challenges and optimizing efficiency solutions.
- **Detail-Oriented –** Focused on writing clean, maintainable code and improving system performance.
- **Collaborative Team Player –** Excel in cross-functional teamwork, ensuring smooth communication and project success.
- **Innovative Thinker –** Constantly exploring new technologies to drive innovation and business growth.

EDUCATION

B TECH INFORMATION AND COMMUNICATION TECHNOLOGY   **JUL 2019 - APR 2023**
SASTRA Deemed University
7.9064 CGPA

12th   **JUL 2017 - APR 2019**
Sri Vageesha Vidhyashram
